INTRODUCTION

This publication will include information for electronic filers testing individual returns through:

- the current e-file system (Participants Acceptance Testing System, PATS)
- the Modernized e-File (MeF) platform (Assurance Testing System, ATS)

WHAT IS MODERNIZED e-FILE (MeF)?

The Modernized e-File (MeF) system is a replacement of the current IRS tax return filing technology with a modernized, Internet-based electronic filing platform. MeF uses the widely accepted Extensible Markup Language (XML) format. This is an industry standard that is used when identifying, storing and transmitting data rather than the proprietary data transmission formats used by older e-file programs. MeF is currently successfully processing electronically filed tax returns for corporations, partnerships, excise tax filers and exempt organizations.

Once MeF is fully implemented, the current 1040 e-file program will be phased out.

IS TESTING THROUGH BOTH PATS AND ATS REQUIRED?

- If your software is going to support the current e-file system, you will test through PATS.
- If your software is going to support the Modernized e-File system, you will test through ATS.
- If you are going to develop software to support both systems, you will test through both PATS and ATS.

WHICH INDIVIDUAL TAX FORMS WILL MeF SUPPORT FOR TAX YEAR 2009?

MeF will support the following forms for tax year 2009:

1040	Schedule EIC	2210	8829
Schedule A	Schedule M (new)	2441	8863
Schedule B	Schedule R	4562	8880
Schedule C	Schedule SE	4868	8888
Schedule D	1099-R	8283	W-2
Schedule E	2106	8812	

WHEN DOES PATS OPEN?

PATS opens on November 10, 2009.

WHEN DOES ATS OPEN?

ATS opens on November 2, 2009.

Additional information on the 1040 MeF program can be found on [irs.gov](http://www.irs.gov/efile/article/0,,id=204750,00.html):

The following chart was developed to assist in identifying differences between the current e-file system and the MeF platform.

PARTICIPANTS ACCEPTANCE TESTING SYSTEM (PATS)

WHO MUST TEST?

The Electronic Tax Administration requires that all Software Developers and Transmitters pass Participants Acceptance Testing System (PATS) and perform the suggested tests in this Test Package before being allowed to transmit directly to the IRS for the 2010 (Tax Year 2009) filing season.

WHY TEST?

The purpose of testing is to ensure, prior to live processing that:

- ▶ *filers transmit in the correct format and meet the IRS electronic filing specifications;*
- ▶ *returns have fewer validation or math errors;*
- ▶ *required fields post to the IRS master file; and*
- ▶ *filers understand and are familiar with the mechanics of electronic filing.*

WHAT IS TESTED?

IRS will provide test criteria for scenarios 1, 2, 3, 4 and 5 that, if supported by the software, all developers must follow and include when developing their test scenarios. Test scenarios 6 through 12 will have limited criteria and must be tested if the software supports the criteria. All test scenarios transmitted must be error free and received in two separate, same day transmissions before the software can be considered as passed. **NOTE: Test Scenario 11, which uses Test SSN 400-00-1011, is programmed to reject with ERC 0500.**

You are required to transmit test scenarios using Forms 1040/A/EZ and Form 1040-SS (PR) and forms and schedules associated with the 1040 series tax return. A test file consisting of at least ten (10) returns, but not more than thirty-eight (38), with the related forms, schedules and attachments must be transmitted. A range of test Social Security Numbers 400-00-1001 through 400-00-1099 will be used in all test scenarios. If your return rejects, you can make the correction and re-transmit as many times as necessary until the return is accepted.

If you will be participating in the Federal/State electronic filing program, you will need to test your Federal/State returns using one of the Federal scenarios you create. You should add the appropriate information in the generic state record and transmit the return as part of your regular transmission. Specific instructions are available from participating states.

The criteria for the test scenarios provide some of the information needed to prepare the appropriate forms and schedules; however, computations and data for all lines have not been provided. Therefore, some knowledge of tax law and tax preparation is necessary. You must correctly prepare and compute these returns before transmitting to the IRS.

Participants Acceptance Testing begins November 10, 2009.

WHEN TO TEST

When PATS testing begins and new Providers are ready to test, they should call the e-help Desk at 1-866-255-0654.

Prior year PATS participants will be contacted by the e-help Desk on or before October 31, 2009.

TEST PASSWORD

New applicants will receive a password letter when their application is processed and the Electronic Transmitter Identification Number (ETIN) is assigned. All other transmitters/software developers will use their current password.

TESTING GUIDELINES FOR SOFTWARE DEVELOPERS

Before testing begins, you must advise the e-help Desk of all limitations to your software package. Your software does not have to provide for all forms and schedules, nor for all occurrences of a particular form or schedule. If your software cannot provide for all occurrences of a particular form or schedule or series of fields, as specified in Publication 1346, no statement record is allowed. You must enter data in all of the required fields. An acceptable limitation would be the number of field occurrences. Your software must be able to create a statement if a statement is necessary to complete a form. Your software must be able to accept different addresses from multiple W-2 forms. The 1040 entity address must "NOT" automatically transfer to the W-2 address. All information on Form W-2 must be entered in the Form W-2 record. There are no exceptions. You must advise the service center of all names you will be using to market your product.

NOTE: If current year PATS approved software is purchased, and the purchaser markets, brands and modifies the data from its original version, then the purchaser must contact the e-help Desk at 1-866-255-0654 to apply for a separate Software Identification Number.

When the separate Software Identification Number is assigned, a communications test must be performed.

REVIEWING ACK FILES AND CORRECTING TESTS

You may transmit as many test returns as necessary until you receive no error messages. You may modify tests to include only conditions your software will handle. You must inform the tax examiners of any forms you do not intend to file.

SOFTWARE DEVELOPER ACCEPTANCE PROCEDURES

The Submission Processing Centers will process each test transmission and the e-help Desk tax examiner will communicate by telephone if necessary with the Software Developer concerning their transmission. If the test file is not correctly formatted, or if the test returns contain errors, the e-help Desk tax examiner will work with the Software Developer to resolve any reject conditions. The Software Developer must review their acknowledgement files, correct the software to eliminate any errors, and retransmit the test file. When all reject conditions have been resolved, the Software Developer must then send two separate same-day transmissions in order to test the ability of their software to increment the transmission sequence number that appears in the TRANA record. When the test file is accepted, the approving site will notify the Software Developer and ensure that the appropriate ETINS are moved to production status. Once a Software package has been approved, the customer may continue to test using their Software Developer ETIN and the range of test Social Security Numbers designated for the test scenarios.

COMMUNICATIONS TEST FOR THE e-file SYSTEM

There are two primary EMS sites: Enterprise Computing Center at Memphis (ECC-MEM), (which hosts Kansas City and Fresno) and Martinsburg (ECC-MTB) (which hosts Andover, Austin and Philadelphia). If you are a *Transmitter* and plan to transmit test returns to more than one service center, you are only required to send a transmission to one site. Testing at multiple EMS sites is optional.

A Transmitter using accepted software must complete an error free communications test by transmitting a total of five returns in two same-day transmissions to one EMS site.

The communication test should reflect the types of returns you will be filing (i.e. if you will be transmitting all four types of Forms 1040, your test should consist of at least one 1040, 1040A, 1040EZ and 1040 SS). **Note: Do not use Test Scenario 11. It is programmed to reject with ERC 0500.**

TESTING ON THE ELECTRONIC TRANSMITTED DOCUMENT (ETD) SYSTEM

The Electronic Transmitted Document, or (ETD) System, processes forms that are not attached to a Form 1040, 1040A, or Form 1040EZ. A separate transmission file (ELF PATS 2) should be created for the ETD System. ETD PATS testing will require a minimum of 5 test returns. You will be required to transmit the returns in two separate, error free, same-day transmissions in order to test the ability of your software to increment the transmission sequence number that appears in the TRANA record.

Note: Once the Software Developers have passed the ELF PATS 1 test, they may begin testing with the ELF PATS 2 data. The ETD file will be composed of: Forms 56, 2350, 4868, 9465, and form payments. Companies that only submit Electronic Transmitted Documents are not required to pass ELF PATS 1.

COMMUNICATIONS TEST FOR THE ETD SYSTEM

If you are a Transmitter and plan to transmit test returns to more than one e-file Submission Processing Center, you are only required to send a transmission to one site. **If you are a Transmitter using accepted ETD software and have passed PATS communications testing for 1040 electronic returns, it will not be necessary for you to do an ETD communications test.**

FEDERAL/STATE PARTICIPANTS ACCEPTANCE TESTING (PATS)

Software Developers will be tested by each individual state using a state provided test package. The applicable State Liaison will respond to all Software Developer questions related to state testing.

CONCURRENT TESTING

Concurrent Testing allows Software Developers to begin state testing, through any IRS e-file Submission Processing Center, prior to obtaining final acceptance from the IRS for the Federal PATS process. The primary home service center is defined as the center that supports the state where the Software Developer is physically located. The Software Developer must contact the state coordinator who, in turn, will schedule state testing with the primary home service center.

The Software Developer may be required to create specific data from state test scenarios. For specific testing procedures, you must contact the appropriate state coordinator.

The Software Developer will continue separate federal testing, at the primary EMS site, using the Federal test scenarios until they are accepted for federal filing. Procedures in place for Federal Participants Acceptance Testing will not change.

TECHNICAL ASSISTANCE

The primary home service center will provide technical assistance on Federal returns only. The state coordinator must respond to any problem encountered by the Software Developer with state data and will work with the Software Developer to resolve all reject conditions on state returns.

Limited testing on the state generic and unformatted records will be performed by the IRS. If these records are not rejected by the automatic checks in the IRS programs, the IRS will make the state data available to each state agency for further testing.

Each state will test the state data and provide feedback to electronic filers. Filers should refer to each state's procedures and specifications.

Software Developers and Transmitters have requested that the IRS and states use different Social Security Numbers (SSNs) for their respective Acceptance Testing process. The following range of Test SSNs has been designated for use by the participating states in the state test packages:

The IRS will only accept these SSNs during Participants Acceptance Testing (PATs). These test SSNs will be rejected if submitted during live processing. The IRS Error Reject Code provided will advise filers that the SSN is not within the valid range of Social Security Numbers.

Electronic filers who have been accepted into the Federal Electronic Filing System, and have begun transmitting federal returns, but wish to continue state testing must obtain a Test ETIN from the applicable IRS service center. Check the state procedures to determine if the state allows testing beyond January 2010.

TEST SCENARIOS

You are required to transmit test scenarios using the Form 1040 return and forms and schedules associated with the 1040 return. If possible, please use and/or acquire a software test Electronic Transmitter Identification Number (ETIN) for PATS testing.

A test file consisting of at least ten (10) returns, but not more than thirty-eight (38), with the related forms, schedules and attachments must be transmitted. A range of test Social Security Numbers 400-00-1001 through 400-00-1099 will be used in all test scenarios. The testing requirements listed below are based on system changes as well as tax form (record layouts) and validation criteria changes for Tax Year 2009. If any of the criteria below falls within the scope of the type of tax returns you prepare for yourself or your clients, you must develop test scenarios with the requirements provided below:

Note: We will validate the Tax Amount, Earned Income Tax Credit (EITC) Amount, Child Tax Credit (CTC) Amount and Additional Child Tax Credit in Test Scenarios 1, 2, 3, 4 and 5. Some of the fields on the tax forms for Tests 1, 2, 3, 4 and 5 are already completed. The remaining fields must be completed by the Software Developer.

Note: If you are creating a test scenario that includes a decedent use 20091015 as the Date of Death (DOD).

Test Scenario 1 includes the following forms:

- Form 1040

Tax Year 2009 Assurance Testing System (ATS) for Modernized e-File (MeF)

See the Introduction on Page 2 of this publication for information regarding the Modernized e-File (MeF) program.

WHO MUST TEST?

Software developers must perform the applicable tests on the following pages before they can be accepted into the 1040 MeF program for tax year 2009 returns. Anyone who plans to transmit must perform a communications test and be accepted.

Prior to testing, all software developers and transmitters must have obtained an Electronic Transmitter Identification Number (ETIN), Electronic Filer Identification Number (EFIN) through the application process.

Refer to Publication 3112, IRS e-file Application Package for more information about the application process.

Software Developers

Software developers will be assigned a test ETIN to be used for software testing. This test ETIN will remain in test status, and will not be moved to a production status. This allows a developer to test year round.

Transmitters

The ETIN assigned in the application process must be included in each message. The ETIN will be set to "Test" until the transmitter passes the required communication testing with the IRS at which time the ETIN will be moved to "Production" status. A transmitter may then request a Test ETIN, which can be used to continue testing once the original ETIN has been moved to Production status. If a transmitter fails to revise its IRS e-file application to indicate they will be transmitting through the Modernized e-File (MeF) Internet XML transmission and/or fails to check the 1040 MeF form type, their ETIN will not be valid for 1040 MeF returns and their submissions will be rejected. The transmission status (Test or Production) of the ETIN being used must match the Test/Production Indicator in the Message Header or the submission will be rejected.

The transmitter must also register the system(s) that will be used to conduct business with MeF to obtain a systemID. If a transmitter and system(s) are not registered, the transmitter cannot access MeF for Fed/State processing.

WHY TEST?

The purpose of testing prior to live processing is to ensure that:

- filers transmit in the correct format and meet the Internal Revenue Service (IRS) Modernized e-File (MeF) electronic filing specifications;
- returns have few validation or math errors;
- IRS can receive and process the electronic returns;
- filers understand and are familiar with the mechanics of electronic filing.

Although not required, we strongly recommend you retest through ATS when there are schema changes (both minor and major)

WHAT IS TESTED?

The test package for tax year 2009 1040 MeF consists of:

- five (5) return scenarios for Form 1040
- two (2) return scenarios for Form 4868

The test returns include all the forms and schedules that are accepted for electronic filing through 1040 MeF. Only a limited number of attachments are included in the test returns. Every

conceivable condition cannot be represented in the tests; therefore, once you pass the tests, you may want to test any additional conditions you feel are appropriate as long as you use the predefined SSNs, Tax Period and Form types.

The test scenarios provide the information needed to prepare the selected forms and schedules. You must correctly prepare and compute these returns before transmitting the tests. The IRS strongly recommends each return be run against a parser prior to being transmitted to the IRS. The IRS will run each return against a parser.

Below are some XML resources regarding XML schemas and software tools and parsers (these resources are provided for information only— the IRS is not endorsing any product).

You may chose any third party parser toolkit or use your own.

- W3C XML Home Page: <http://www.w3.org/XML/>
- W3C XML Schema Home Page: <http://www.w3.org/XML/Schema>
- XML Spy: <http://www.xmlspy.com/>
- Apache Xerces parser toolkit: <http://xml.apache.org/>
- Microsoft Core XML Services: Microsoft Core XML Services:

<http://www.microsoft.com/downloads/details.aspx?FamilyID=3144b72b-b4f2-46da-b4b6-c5d7485f2b42&DisplayLang=en>

Note: The Modernized e-File (MeF) Assurance Testing System (ATS) is not configured exactly the same as the MeF Production system. Therefore, a tester should not expect the same response time when testing in the ATS environment versus the Production environment (especially regarding performance or load testing -- this includes testing a single extremely large return in one transmission, a lot of large returns in one transmission, or a large number of concurrent transmissions).

FORMATTING THE ENTITIES

Some addresses represented in the test scenarios are shown in common usage with commas and periods. Refer to XML efile Types in Publication 4164 for proper formatting for the name lines and addresses. No commas or periods are allowed.

Example:

Test Scenario 1 address:

Dawn Green
2300 First Test Street
San Francisco, CA 94102

XML Format

Dawn <Green (Form 1040 Filer name has NameLine1Type in schema version 3.0 and subsequent versions)
2300 First Test Treet (StreetAddressType)
San Francisco (CityType)
CA (StateType)
94102 (ZipCodeType)

WHEN TO TEST

When you are ready to test call the e-Help Desk at 1-866-255-0654. They will assist you in all preparations necessary to begin testing, including assigning you a Software ID to use when submitting your returns.

TESTING GUIDELINES FOR SOFTWARE DEVELOPERS

Software does not have to provide for all forms or schedules, nor for all occurrences of a particular form or schedule. You must advise the e-Help Desk at 1-866-255-0654 of all limitations to your Software package at the time of first contact, before testing begins. You must test the complete form with no field limitations except for the number of occurrences.

NOTE: If current year ATS approved software is purchased, and the purchaser markets, brands and modifies the data from its original version, then the purchaser must contact the e-help Desk at 1-866-255-0654 to apply for a separate Software Identification Number.

When the separate Software Identification Number is assigned, a communications test must be performed.

FEDERAL/STATE TESTING FOR FORM 1040

ATS for tax year 2009 will be available on November 2, 2009 for both transmitters and states. Transmitters should test federal scenarios before attempting to test with states. Contact each state for the specifics on the scenarios to use for its state returns. Federal and state returns may be filed through IFA or A2A. States must retrieve state returns through A2A. Any of the test returns may be used if you will be participating in the Federal/State electronic filing program for Form 1040. Inform the e-Help Desk of which test you will be using. You should add the appropriate information in the generic state record and transmit the return as part of your regular transmission. Specific instructions are available from the participating states. Fed/State returns may be transmitted through Application to Application or Internet Filing Application (IFA).

ELECTRONIC SIGNATURES

There are two electronic signature options available for individual tax returns: the Practitioner PIN and Self-Select PIN (which includes the new Electronic Filing PIN method). The selected signature option must be identified in the Return Header. MeF validates that a signature is present for each return. Publication 4164, Modernized e-File guide for Software Developers and Transmitters has specific information about signature requirements.

REVIEWING ACK FILES AND CORRECTING TESTS

You may transmit as many test returns as necessary until you receive no error messages. Any Business Rules violations must be corrected in order to pass ATS testing.

FINAL TRANSMISSION

Once you receive no rejects, you will be required to transmit the returns in two separate, same-day transmissions in order to test the ability of your software to increment the transmission ID number that appears in the Transmission Header. If you have included the Form 4868 test scenarios in your testing, include these tests in the second transmission.

COMMUNICATIONS TEST FOR THE MeF SYSTEM

IRS allows two means of transmission for MeF, Internet Filing Application (IFA) and Application to Application (A2A) for Form 1040 and 4868. The Electronic Management System (EMS) is not an option for MeF.

If you will be transmitting through the Internet, you will need to perform the communications test through the Internet.

If you will be transmitting through A2A, you will need to perform the communications test through A2A. If you will be transmitting through both portals, IFA and A2A, communications tests must be performed through both systems.

A Software Developer, who will not transmit, need not perform a communications test.

USING YOUR OWN TEST

After passing ATS testing, Software Developers, may test with their own data using the same password and ETIN. Transmitters will need to get a new Test ETIN to continue testing, because IRS will move the original ETIN to “production” status once the Communications Test is passed. You will continue to use the same password. Call the e-Help Desk at 1-866-255-0654 to obtain a new Test ETIN. You must use the same taxpayer entity information (names and social security number) that is provided in the test package for your independent tests. DO NOT use any other social security numbers other than ones shown below for test scenarios.

SOCIAL SECURITY NUMBERS TO USE FOR TESTING

Only approved test social security numbers may be used in 1040 MeF ATS:

- 400-00-1001 through 400-00-1101 for federal tax returns and linked Fed/State returns
- 400-00-3500 through 400-00-8099 and 700-00-0000 through 700-00-2000 for unlinked state returns.

The following business rules are applicable to 1040 MeF ATS:

R0000-928 - Primary SSN in the Return Header must match the e-file database.

R0000-929 - Secondary SSN in the Return Header must match the e-file database.

Test returns for federal tax returns or linked Fed/State returns submitted to 1040 MeF ATS, which include primary SSN or secondary SSN outside of the ranges shown above, will reject.

Next: Is line 9 more than line 6?

- ☐ **No.** You **do not** owe a penalty. **Do not** file Form 2210 unless box **E** below applies.
- ☒ **Yes.** You may owe a penalty, but **do not** file Form 2210 unless one or more boxes in Part II below applies.
- If box **B, C,** or **D** applies, you must figure your penalty and file Form 2210.
 - If box **A, E,** or **F** applies (but not **B, C,** or **D**) file only page 1 of Form 2210. You are **not** required to figure your penalty; the IRS will figure it and send you a bill for any unpaid amount. If you want to figure your penalty, you may use Part III or IV as a worksheet and enter your penalty on your tax return, but **file only page 1 of Form 2210.**

Part II Reasons for Filing. Check applicable boxes. If none apply, **do not** file Form 2210.

- A** ☐ You request a **waiver** (see page 2 of the instructions) of your entire penalty. You must check this box and file page 1 of Form 2210, but you are not required to figure your penalty.
- B** ☒ You request a **waiver** (see page 2 of the instructions) of part of your penalty. You must figure your penalty and waiver amount and file Form 2210.
- C** ☐ Your income varied during the year and your penalty is reduced or eliminated when figured using the **annualized income installment method**. You must figure the penalty using Schedule AI and file Form 2210.
- D** ☐ Your penalty is lower when figured by treating the federal income tax withheld from your income as paid on the dates it was actually withheld, instead of in equal amounts on the payment due dates. You must figure your penalty and file Form 2210.
- E** ☐ You filed or are filing a joint return for either 2008 or 2009, but not for both years, and line 8 above is smaller than line 5 above. You must file page 1 of Form 2210, but you are **not** required to figure your penalty (unless box **B, C,** or **D** applies).
- F** ☐ You are certifying that more than 50% of the gross income shown on your 2008 tax return is income from a small business (as defined in the instructions) and your adjusted gross income for 2008 is less than \$500,000 (less than \$250,000 if your 2009 filing status is married filing separately).

Part III Short Method**Can You Use the Short Method?**

You may use the short method if:

- You made no estimated tax payments (or your only payments were withheld federal income tax), **or**
- You paid the same amount of estimated tax on each of the four payment due dates.

Must You Use the Regular Method?

You must use the regular method (Part IV) instead of the short method if:

- You made any estimated tax payments late,
- You checked box **C** or **D** in Part II, **or**
- You are filing Form 1040NR or 1040NR-EZ and you did not receive wages as an employee subject to U.S. income tax withholding.

Note: If any payment was made earlier than the due date, you may use the short method, but using it may cause you to pay a larger penalty than the regular method. If the payment was only a few days early, the difference is likely to be small.

See Publication 4164 and the MeF Submission Composition Guide for guidance on including binary attachments with a submission.

If your software will not support binary attachments, select the Form8283PaperDocumentIndicator in the Return Header. Do not send in a Form 8453 with the Form 8283 to IRS for this test scenario.

Who Must File Schedule SE

You must file Schedule SE if:

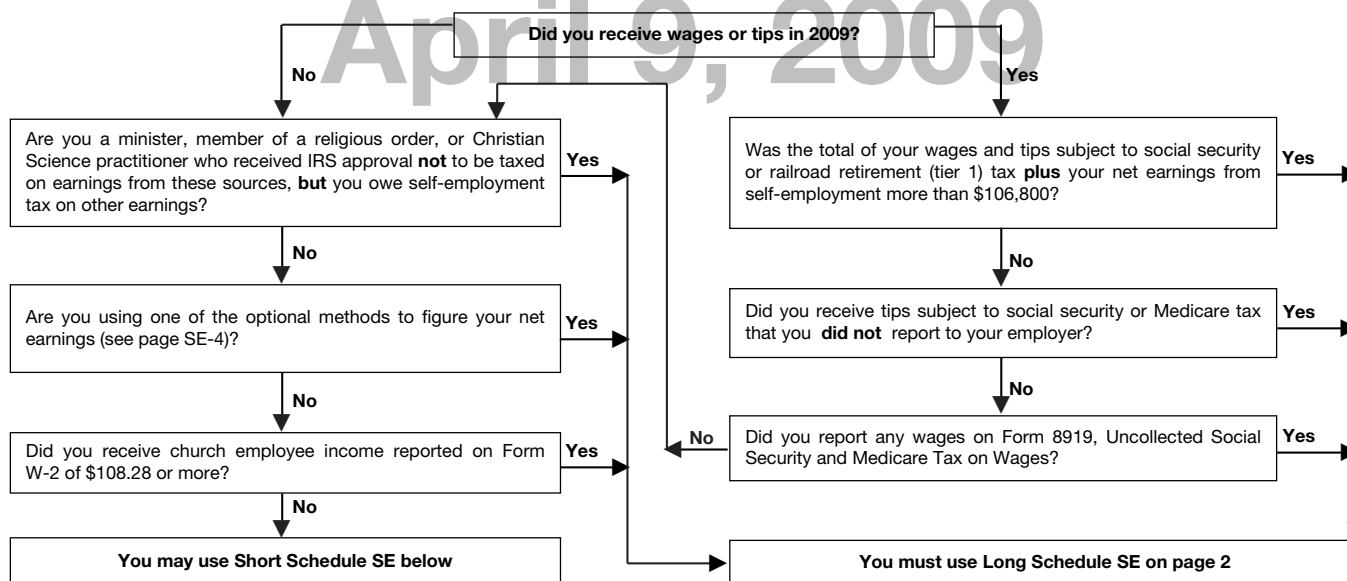

- You had net earnings from self-employment from **other than** church employee income (line 4 of Short Schedule SE or line 4c of Long Schedule SE) of \$400 or more, **or**
- You had church employee income of \$108.28 or more. Income from services you performed as a minister or a member of a religious order **is not** church employee income (see page SE-1).

Note. Even if you had a loss or a small amount of income from self-employment, it may be to your benefit to file Schedule SE and use either "optional method" in Part II of Long Schedule SE (see page SE-4).

Exception. If your only self-employment income was from earnings as a minister, member of a religious order, or Christian Science practitioner **and** you filed Form 4361 and received IRS approval not to be taxed on those earnings, **do not** file Schedule SE. Instead, write "Exempt—Form 4361" on Form 1040, line 56.

May I Use Short Schedule SE or Must I Use Long Schedule SE?

Note. Use this flowchart **only if** you must file Schedule SE. If unsure, see *Who Must File Schedule SE*, above.
